

must do everything we can to address it.

Mr. Speaker, the American people are tired of being outraged, of sending thoughts and prayers, of seeing men, women, and children die because the gun lobby puts profit over people. That is not what our Founders intended by the right to bear arms.

With rights come responsibilities: the responsibility to stop gun sales loopholes, to enact protections that make sure our kids and those with severe mental illnesses don't have access to guns, to address funding for mental health, and to oppose any efforts to make it easier to purchase silencers.

Mr. Speaker, 87 percent of gunowners and 74 percent of NRA members support those commonsense solutions, like criminal background checks.

I have a plea for gunowners across this country: urge the NRA to represent your views; show them that you mean business by speaking out or even terminating your NRA membership; show them that you care about your fellow Americans. Act now. Enough is enough.

CANCER LINK CELEBRATES 30 YEARS

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, I rise to celebrate the 30th anniversary of Cancer Link, an amazing volunteer organization dedicated to finding a cure for breast cancer and assisting those in south Florida whose lives have been impacted by this disease.

Cancer Link was founded in 1987 by a small group of 10 Miami women who wanted to spread awareness about breast cancer after suffering the devastating loss of a friend. In the years since, this wonderful organization has grown into an impactful volunteer group that has supported essential breast cancer research at the Sylvester Cancer Center in Miami, Florida.

The volunteers at Cancer Link have also helped provide essential community healthcare programs that ensure that healthcare for breast cancer treatment is accessible to every woman in our community.

Congratulations again to all who have been a part of Cancer Link throughout the years, and thank you for 30 years of service to our community.

CONGRESS NEEDS TO MAKE IT HARDER FOR DANGEROUS PEOPLE TO ACQUIRE ASSAULT WEAPONS

(Ms. SÁNCHEZ asked and was given permission to address the House for 1 minute.)

Ms. SÁNCHEZ. Mr. Speaker, I rise today with great sorrow and anger.

Last night, more than 58 people were tragically murdered and over 500 wounded in a senseless act of violence in Las Vegas, Nevada.

The murderer was found to have 20 guns, including at least one automatic rifle. No person should be allowed to possess a weapon that makes indiscriminately killing human beings easier.

It just baffles me that some of my colleagues don't agree with that basic premise. Not only do they not agree with sensible gun control measures like background checks and no fly, no buy, they won't even allow public research dollars to be used to research gun control and gun violence.

Until Congress acts to make it harder for dangerous people to acquire these types of weapons, tragedies like this will continue to happen.

How many more people have to die?

How much more blood must be shed before Congress decides to act?

Moments of silence and sympathy and prayers from Members of this body are not enough anymore. The time has come to act. We must act now.

OCTOBER IS BREAST CANCER AWARENESS MONTH

(Ms. TENNEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. TENNEY. Mr. Speaker, I rise today to recognize Breast Cancer Awareness Month and all who have been affected by this terrible disease. Each October we take time to raise awareness about the threat breast cancer poses to women and men throughout the country and the world.

Studies show that one in eight women across the Nation will be diagnosed with breast cancer in their lifetime and that more than 249,000 people in the United States are diagnosed each year. Roughly 1 percent of those are men.

This month, it is not only imperative that we reflect upon all who are affected by breast cancer, but that we also take action to fight against it.

Today I would like to recognize a courageous constituent, friend, and cancer survivor, Karen Newton. Earlier this year, I played in the Congressional Women's Softball Game in honor of Karen's triumph over breast cancer. Karen is a vibrant testament to the fact that strides we make in medicine are helping cancer patients and their loved ones, though I don't think she is a very good driver.

Whether it is wearing pink to raise awareness or offering support to a brave person who is fighting this disease, in October, let's all join together to fight to end breast cancer.

CONGRESS MUST PROVIDE RELIEF TO PUERTO RICO

(Ms. BARRAGÁN asked and was given permission to address the House

for 1 minute and to revise and extend her remarks.)

Ms. BARRAGÁN. Mr. Speaker, I rise today because American citizens are suffering in Puerto Rico. Twelve days after Hurricane Maria made landfall, more than half of the island's residents are still without running water.

Low-income communities have been hit especially hard. They are trying to survive through unsafe and unsanitary conditions, where the basics of life can be impossible to find.

After an earthquake struck Haiti in 2010, I was proud to see that America deployed every available resource the very next day at the crack of dawn to help out. But I wonder why the same response wasn't deployed to help Americans in Puerto Rico.

I call on the administration and Congress to ensure that Puerto Rico receives the emergency aid it needs now so we don't lose more American lives to the storm.

Congress must also provide real relief and aid to our brothers and sisters there. The situation in Puerto Rico is dire, and our fellow Americans are counting on us to act now.

SUPPORTING THE PAIN-CAPABLE UNBORN CHILD PROTECTION ACT

(Mr. WALBERG asked and was given permission to address the House for 1 minute.)

Mr. WALBERG. Mr. Speaker, I, along with all of our American citizens, recoil today at the senseless and evil mayhem and killing that went on in Las Vegas. We pray for the families of those whose lives were lost, as well as those who are injured and suffering right now.

I, along with, I am sure, many Americans, recoil at senseless abuse of innocent animals that we love and we enjoy. But I wonder how many of us also recoil at the senseless abuse and murder of innocent babies in the womb.

I stand here today to support the Pain-Capable Unborn Child Protection Act, H.R. 36. I support it because it is backed by science. It protects the unborn from suffering. It saves innocent lives. It promotes American values, values that made this country great, that understand the sanctity of life and the beauty of our creator's evidence in this world today in human beings.

I ask my colleagues to join with me and many others this week as we support H.R. 36, and we say to our creator and our God: Thank you for innocent life itself, and may it be preserved and protected.

WE HAVE GOT TO DO SOMETHING TO STOP MASS SHOOTINGS IN AMERICA

(Mr. ENGEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ENGEL. Mr. Speaker, when will it end? When will the carnage end? How
